Rehabilitation Hospital Foundation

EXCELLENCE IN REHABILITATION

Rehabilitation is transformative. When we help children and adults achieve independence and maximize function, we can minimize pain, medication, complications and cost. We are the only independent, not-for-profit hospital in Michigan focused exclusively on physical rehabilitation.

We treat with our hands and heal with our hearts

Mary Free Bed provides patient-focused rehabilitation with leading-edge technology, evidence-based therapies and a unique culture of care. Our patient outcomes and satisfaction scores are excellent, and the hospital ranks in the top one percent* of free-standing rehabilitation hospitals in the nation, but we know we can do more. That's why we must continue to invest in staff, programs, facilities, education and technologies to ensure we can help more people in more places and provide the best outcomes.

A TRADITION OF COMMUNITY COMPASSION

The Mary Free Bed Foundation provides a critical community connection for the meaningful work that takes place at Mary Free Bed. Our doctors, therapists and nurses are experts in rehabilitation and possess the skills to enable patients to reach their full potential. You can play a significant role in this life-changing process. Generous donors like you help us to provide more than \$13 million in charitable care each year. This resource ensures patients receive the care they need to achieve the best possible outcome, in spite of insurance gaps or ability to pay.

When you invest in the Mary Free Bed Foundation, you help restore hope and freedom to children and adults in your community.
